

Dear FCC Members:

I strongly urge you to reject the NAB's petition # 04-160. Should their petition succeed, this would have the effect of limiting the free speech of one of their competitors. Let the market decide. If the NAB is worried about inroads into their audiences by satellite radio stations, let them find new and better ways to compete. The government should not interfere in the competitive process. Please reject their petition.

/s/Wendell J. Clark
